Sticks Head in Springs of Cot and Sowersulfite to Death

Special Dispatch to The Journal

LUMPKIN, Ga., March 16.—(Continued) A negro, about sixty years of age, committing suicide in the jail here Saturday night by placing his head between the foot and springs of his cot and sowing sulfite, breaking his neck, he had been placed in the jail because of a previous attempt to kill himself.

It appears to be the one thing that is not a body of Miss Florence Burns, daughter of William Burns, the detective, for although Miss Burns, who is in Atlanta with her father, admits she knows little about the third degree and the brutality which the

embarrassed about mounting a claim for a student of art at Columbia college and above all, beautiful. Miss Burns confessed to being well-frustrated and a tongue. "I am not a militant suffragette and when I marched in a 'suffragette parade' I was not in the front of the parade."

She was given the ballot. "I thought to dance and am quite partial to the dance."

Miss Burns arrived here Sunday afternoon with her father. She is en route for Miami, Fla., where she will reside for some time.

"All I have learned about detection is from my father," she said. "I have not been interested in his case and have followed his progress closely ever since I was a little girl. I am very much interested in this case, which is attracting a great deal of attention in the north."

Miss Burns went on to tell her experience in Europe, where she traveled alone. "She was especially interested in the Blue Bird, which she saw in the Alps. The Blue Bird will be her next mountain-climbing goal," she declared.

SENATOR OWEN HAS LOOK AT N. Y. STOCK EXCHANGE

Chairman of Senate Committee on Banking Pays Unexpected Visit

(By Associated Press.) NEW YORK, March 16.—The New York stock exchange received an unexpected visit today from Senator Robert L. Owen, chairman of the senate committee on banking and currency, chief opponent of the proposed regulations affecting operations of stock exchanges. He was admitted to the floor and seated about by Vice President H. K. Hunt and several of the governors, such as honor had been in the past extended to Mr. Thomas Lipton and the Duke of Connaught. The object of Senator Owen's visit was a study of the stock exchange at first hand.

MANY WOMEN EXPECTED TO QUALIFY FOR ELECTION

(By Associated Press.) CHICAGO, March 16.—The number of Chicago women qualified under the recent Illinois equal suffrage act to cast their first vote at the aldermanic election in April will be doubled at tomorrow's registration, according to predictions today of woman suffrage leaders. More than 150,000 women have advantages of their first opportunity last night to become registered voters. Suffrage leaders expect this number will be increased tomorrow to at least 300,000. More than 400,000 Chicago men are eligible voters.

Hundreds of women yesterday attended mass meetings which were held in several downtown theatres under the auspices of women's organizations. Several women candidates for aldermen addressed the meetings which were attended by many of the 700 women who will sit at registration officials tomorrow.

Mother and Her Son, Once Rich, Now Poor, Attempt to End Life

(By Associated Press.)

NEW YORK, March 16.—How easy it is to hide one's identity in a big city was exemplified in a police court case here yesterday when an elderly woman and a young man, giving the fictitious names of Mrs. Florence Miller and Samuel J. Miller, were arraigned charged with having attempted to commit suicide last Friday in a west side flat. They are mother and son and had sunk from a stage of affluence to that of starvation. They had not revealed their identity to the attendants of the hospital where they were taken after they had attempted to kill themselves by gas asphyxiation, nor did they tell the magistrate who they were. To aid them, Mrs. Wise, wife of Dr. Stephen S. Wise, of the free synagogues, appeared in court.

"I understand this woman and her son were formerly wealthy," said Mrs. Wise to the magistrate. "They suffered misfortunes and became discouraged. Their husband once was worth nearly \$1,000,000. They have prominent friends in New Orleans who will doubtless come to their aid. I am ready to take care of them until help arrives."

"The Millers" were discharged and went away with Mrs. Wise. Later Mrs. Wise said she had communicated with friends of the couple in the south, and that they would care for them. Mother and son, she said, were now glad their attempt at suicide had failed.

MAYOR OF TERRE HAUTE ON TRIAL FOR CORRUPTION

Official Charged With Entering Into Conspiracy to Corrupt Elections

TERRE HAUTE, Ind., March 16.—Arguments on a motion to quash the indictments marked the opening here today of the trial of Mayor Donn M. Roberts on charges of conspiracy to corrupt elections. The motion was presented by Mayor Roberts' attorneys last week and is the same as that made in the trial here three weeks ago of William Huffman. The motion in Huffman's case was overruled and he was found guilty and sentenced to serve three to ten years in the state prison. Court officials requested that Governor Harrison furnish protection for the witnesses and officials during the trial but the governor refused to call out the militia for this purpose. Every person who entered the courtroom today was searched for weapons. After the court convened the doors were locked and no one allowed to enter or depart until the noon recess.

ASKS DIVORCE, CHILD AND ALIMONY FROM HUSBAND

Alleging desertion since December, 1910, as the grounds for separation, Mrs. Essie Tankersley filed a suit for divorce in the superior court Monday morning against G. C. Tankersley. Mrs. Tankersley asks for temporary alimony, permanent alimony, attorney's fees, costs of court, a permanent divorce and the custody of the child, Elizabeth, four years old.

Judge Ellis set March 28 as the date upon which the first hearing of the case will be held, and in the meanwhile enjoined Tankersley from disposing of any of his property, amounting, in all, to about \$5,000.

Suits That Are NEW

The display of spring suits has reached a point that borders on perfection. We mean that stocks are so varied, so typical of the new fashions that a woman may turn to this store with a sense of satisfaction and confidence that here she will find the suit she wants above all others.

It is not necessary to tell a woman the generalities of the new styles---all we would urge is that she see how accurately the suits we have gathered reflect those generalities and these other little style points that mark the out-of-the-ordinary---things that smack of Paris, of makers possessing a large bump of originality.

You have heard much of frillings and ruffles, of the short bolero and the quaint Eton, of the bouffant skirt, of the exquisite colors of this spring.

Now let us show you these things---let us try one suit on you after another (all the styles are here) until you see that **this** suit with coat fashioned **so** and skirt fashioned **so** is the suit most becoming to you.

And these are the days to enjoy the spring suit!

Woolen Suits at \$18.75, \$21.75, \$25.00, \$29.75 \$35.00 and up
Silk Suits at \$25.00, \$29.75, \$35.00, \$39.75, \$50.00 and up

And silks are in great favor---the plain taffetas, the moires, the failles and the aristocratic crepes radium. But we do not mean to specialize on any---our best efforts have gone into the selection of suits at every price.

A Visit to the Bazaar During Spring House Cleaning---

A New La Vida Corset Fitted By Mrs. Marvin and a Woman Is Ready!

Ready for the fitting of the new suits, the new dresses, the new evening gowns she will have for the spring functions.

Mrs. Marvin has years of experience in corset fitting back of her. She knows. She knows anatomy; she knows corsets; she knows styles.

And she has here at her finger's end the splendid new models of La Vida Corsets. So there is nothing wanting.

Below is listed a number of the La Vidas that are particularly fine for wear with the dresses and suits of spring styles.

At \$3.50 Of coutil, with medium low top, free, long, smoothly fitting back---an excellent model for the large figure.

At \$5.00 A corset with elastic lacing over the abdomen; low bust, long back; it imparts that "naturalness" to the figure so desired right now.

At \$5.00 Of broche, extremely long back with low bust. The elastic side gores insure comfort and ease when one is sitting. For the average figure. The same model may be had in a neatly patterned batiste.

At \$6.50 A light and supple corset for dancing, of suedine, a boneless model, one-inch top. For the slender figure.

At \$8.50 A heavier and stronger corset of imported coutil, for the average or stout figure. Low bust, very long back that fits snugly over the hips because it has elastic gores at the side.

At \$15.00 An elegant model of imported broche, few bones, long back that conforms to the shape; elastic gores; low bust; beautifully trimmed. For the medium or stout figure.

YOUR MONEY

One Big Opportunity
for the Good Organizer.
By JOHN M. OSKISON.

Governor Glynn of New York, wants the legislature to set aside from \$25,000 to \$50,000 to pay for hiring ex-

It is possible by proper co-operation to cut this cost in half; the way to do the trick has been worked out and

Here is something that the ambitious young man with limited capital might take up with almost a surety of making good—provided he has organizing ability.

An easily handled community of farm producers will turn out every year stuff which will sell for \$150,000 to the final consumers. Suppose the community organizer could raise the total receipts to the farmers for \$150,000 to \$75,030. Couldn't he be sure of a well paid job about as long as he wanted to work at it?

Reversing the farmer's usual procedure of buying what he needs at retail and selling what he produces at wholesale will work as great a change in his income as is indicated in the figures I have used. Just such co-operation as can be managed by any farmer is the best cost saving plan. The man who will take the trouble to look into the idea will bring rich returns.

And it is the outsider who has the best chance to make good at the game. In a community where there would be no community jealousy to overcome.

Magazine Day, the Newspapers and Women's Clubs

The chairman of the press committee

of the March number of the Federation Magazine says that each week brings in fresh reports of the growing friendship of the newspaper fraternity toward the club movement.

The policy of this committee for the past year has been to enlist the interest of the daily newspaper in club doings. All over the country it is found that the papers are disposed to do even more than the clubs hoped for. This says means several things. "It signifies that club women are doing things of real moment in their communities and are growing factors in the world's progress."

"It means that they have outgrown their old provincialism and are keenly interested in one another and anxious to learn of one another."

"It means, too, that they have rid themselves of a certain self-satisfaction and early nineteenth century disapproval of seeing their names in the public prints, lest, forthwith, they appear common and not quite ladylike."

She urges that the club department in a limited field, and that those features be stressed which are most useful and calculated to inspire greater usefulness; that dress, refreshments and decoration be taken for granted and certain items and say "that they do not know before that the clubs were doing work so important."

We know from experience the many tribulations that beset the path of the club editor of the newspaper, and how often she must labor that her space may not be "gull or commonplace."

Magazine Day

Thursday, April 16, will be Magazine Day with all federated club women. The Federation of Women's Clubs Magazine is a splendid periodical of world-wide interest. No good clubwoman can afford to be without it. Each month its field of information seems to broaden. The reports of chairmen of the different departments of the general interest, beautiful illustrations, make it an addition to any reading table. Mrs. Pennybacker especially urges that the club keep general federation before its members. "There is no surer way of obtaining good workers than by this interchange of ideas."

Crackers Will Meet Kentucky Colonels Today

Manager Smith's Crew Opens Exhibition Season With Jack Hayden's Team - Two Ex-Crackers in Visitors' Line-Up - Smith Will Make Several Shifts

The Louisville baseball team of the American association, known to fans as the "Kentucky Colonels" reached Atlanta this morning from their spring training camp at Fort Myers, Fla., and are ready to do battle with Manager Bill Smith's Crackers this afternoon at Ponce de Leon. The Kentuckians have had the advantage of most favorable weather conditions in their camp and report here in good shape.

Manager Jack Hayden brings with him nine hurlers, three catchers, six infielders and four outfielders. Most of these are more or less well known to local fans, since they have been at various times in the big leagues. Then, two, Hal Beaumier and Al Bruce, are former Crackers, both having played here in 1911. In addition to these two, there are Fred Toney and Loudermilk, who have labored with the Cubs in the box, as well as Woodburn, who was also in the big league at one time.

O'Rourke and Inman, an infielder, and Severini, catcher, with Osborne and Scott, infielders in the outfield, are all players who have seen service in the majors. Hence the lineup which will meet the Crackers this afternoon will be composed almost entirely of big leaguers. It is expected that Manager Hayden will use Toney and Loudermilk in today's game.

Manager Smith has not given out any line-up for the game, but it is probable that the following will start the affair: First base, later, McCormick, second base, Schwind, shortstop, Manush, third base, Long, left field, Welch, center field, Flanagan, right field, Manush, catcher, either Perryman, Duescher or Browning in the box. In all probability these three will be used, while other shifts will likely be made both on the infield and in the garden.

The local bunch has not had as much time to get in shape as the visitors, but are in pretty fair condition. They accordingly, expect to put up a good game against the invaders, and the contest should prove a highly interesting one. The game will be called at 3 o'clock, and an admission of 25 cents will be charged.

Miss Ravenscroft May Not Defend Title

PHILADELPHIA, Pa., March 15.—Miss Gladys Ravenscroft, holder of the women's national golf championship in the United States, may not defend her American title this year. Miss Ravenscroft said Sunday that she doubted if she would be able to return to the United States this year after she returns home in about a month. She has been participating in tournaments here.

Fullerton Notes

Toledo aldermen are right there with the humbug stuff. They passed an ordinance permitting boxing bouts if the public is admitted free of charge.

Pat Nelson will be anxious to fight in Toledo!

Pat doesn't care any more for a dollar than for his right eye.

The appointment of Magee as captain of the Phillies was not a surprise. The desertion of Mike Dodan left him the only non-foreigner on Dodan's payroll.

Clark Griffith makes his athletes go through the motions of pitching before a mirror, the idea of this being to correct the imperfections and weakness in the delivery of the arm.

Tom Daly, who used to be a battery mate of Evers and Tinker, is now a scout for the New York Yankees.

TIME FOR GRANDMAS TO DIE. Those springtime days will soon be here.

The happiest of the year. From the office boy to the pretty stenog. This brings a word of cheer.

Watermelon must be plentiful in Paris. We have this little surprise from the fact that Johnson, Langford and Janette stick close to Paris.

THE SPORTLIGHT BY GRANTLAND RICE

A SONG OF VAIN WISHES.
I wish I were Robinson Crusoe, alone on a little old isle.
Shut out in a lavers out of a cavern, where I might remain for a while.
With my valve Friday to keep the place tidy. O what a pipe job it would be.
With no bill collectors out after my dough or dunning the flat rent from me.

CHORUS.
I wish I were Robinson Crusoe,
I'd give anything just to do so;
To live far away from the times that they play—
Oh, lucky old Robinson Crusoe.

I wish I were Rip Van Winkle today, just starting upon a long sleep.
Where I might forget every Mexican fret and the troubles that after me creep.
Where for twenty sweet years I might dream of the cheers that our Mack-beating team had aroused,
And not wake to know that the dream wasn't so and disgustingly go and get soured.

CHORUS.
I wish I were R. V. Winkle.
Asleep where the little stars twinkle.
In the woods, dull and solemn, I'd pass up this column—
If I were old R. V. Winkle.

COBB VS. SPEAKER.
"Well," he heard a bulbous-eyed fanatic remark the other day,
"why shouldn't Speaker get as much as Cobb. He may not be quite as good, but he is younger and so has farther to go."

This seems to be a popular fan impression, but the facts are that Cobb was born in 1886 and Speaker in 1883. This is thirty-one years old and thirty-one years old.

The widespread error probably arises from the fact that Cobb debuted at the soon age of eighteen summers, while Speaker was twenty-three before they began to pay him money for his stunts.

THE PHILLY RAID.
The Feds raided the two Philadelphia clubs and carried away seven athletes. The seven losses were divided as follows: From the Phillies, 7; from the Athletics, 0.

In attempting to raid the Mackmen, President Gilmore discovered that Mack's people not only asked for a raise over their salaries, but also an accounting for the \$3,256.73 they expected to inhale about the 14th of October, the same being the winner's end of a certain little series scheduled on the books.

The battle between Brooklyn and Ty Cobb was finally called off because Cobb refused to make 172 pounds at 3 p. m.

If the St. Louis Feds have any intention of winning the pennant, they should begin by a gradual process and break the news gently. For a St. Louis club to jump out in front and stay there for any length of time would produce a shock attached to fatal results. We doubt if the citizenry of that community could withstand such an unexpected blow.

We wonder why Prexy Wilson felt that he had to have his eyes examined? He lives in Washington, but he doesn't have to hit at Walter Johnson.

Down in Mexico the Feds achieved a notable victory. Is this a hunch?

New York, having embraced White Hoppe, has now fallen for the wretches. Having attained Farthest South, there seems nothing left to do now except to sit down or hurdle off into space. It's something, anyway, to know that you have inhaled the worst and that any shift is bound to be an uplift.

UPLIFTING THE PHILLIES.
As Red Doolin's outlay has suffered the hardest blow from the raiding Feds, perhaps crippling the N. L. race, it's something safer than 2 to 1 that within the next few weeks some attempt will be made by the rest of the circuit to plug a few gaping holes in the Philly armament.

If it's likely that the league will let a pennant contender be blown to pieces without rendering some aid. There is little chance that sufficient talent can be furnished to put the club back in the fight, but something will be done to improve conditions in an attempt to retain patronage that has been built up slowly for the last five or six years.

The English writer who referred to the "sham vigor of the Yankers" would probably label it "the sham speed of Walter Johnson." The "fake batting eye of Frank Baker" and the "alleged ability of Ty Cobb."

Or, in referring to "the sham vigor of the Yankers," he may have lamped the 1913 standing of the clubs in the American league.

Tilly Shafer was one of the few unfortunate athletes who signed a three-year contract before the Feds loomed up against the horizon. Tilly understands the technical position he is in and so will probably retire from the game until the ante is lifted and he is given the benefit of the late financial uplift. All of which will more than likely be done in time to bring Mr. Shafer around by April.

Tilly might well be blamed for not getting through with his contract. But imagine, on the other side of it, about how you'd feel if your hands were securely knotted and the next day it started raining \$50 bills.

Hot Fight On With Lookouts For Third Bag

Jimmy Gillespie and Harry Brant Battle for Regular Position at Far Turn on McCormick's Team - Former Is More Experienced, While Latter Hits Better

(Special Dispatch to "The Journal.") CHATTANOOGA, Tenn., March 14.—With the arrival of Jimmy Gillespie in the sink of physical condition, local diamond fanatics are assured of a spirited fight for the utility berth upon the 1914 Lookouts machine. Harry Brant will contest possession of the berth with Gillespie. The position in question is the only one upon the entire Lookout array which is now a matter of dispute, all others having been permanently assigned, so rapid has been the progress of McCormick in whipping his machine into form.

Gillespie's actions at Andrews field have convinced local fanatics that the Lookouts' third jacker of the first part of the 1913 season has entirely recovered from the terrific blow which he received at the hands of Hardgrove.

Jimmy states that the blow no longer effects him in the least, after the long rest which he obtained last fall at the financial expense of the local club, and that his appearances certainly substantiate the assertion.

Brant's showing up to date has been almost sensational for a recruit and he promises to run Gillespie an awful race for the one berth. The coast phenom has been playing at second during the absence of Flick, who has not yet reported, and has made a great impression. McCormick will hold both men until the date arrives for the observation of the salary and player limits.

On paper Gillespie probably has a slight edge on Brant for the position as a utilityman, because of the fact that he is a dependable outfielder, while his opponent has had but little experience in the outer work. The latter, however, is slated to perform more effectively with the willow, his record last season indicating that he is a dangerous slicer.

Cubs Play Athletics In Jacksonville Today

JACKSONVILLE, Fla., March 14.—Hank O'Day and his Chicago club of the National league, arrived in the city last night and will open a three-game series with the Philadelphia Athletics at Burt's field today. Both managers stated tonight that they would put their strongest line-up in the field. The Athletics club is intact with the exception of Third Baseman Baker, who is expected to arrive later tonight.

Five More Gulls Report to Manager Lord

MOBILE, Ala., March 14.—Five more players reported to Manager Lord yesterday, leaving but three more men to report. The men arriving today were: Infielders Clayton Perry and George Tope; Outfielder Elmer Miller; Catcher Larry Brown and Pitcher W. Robertson. The signing of John Dobard, an infielder, was announced today.

Sutton Making Ready for Hoppe

NEW YORK, March 15.—George Sutton, who will seek to regain the 131 ball line billiard championship from Willie Hoppe, today began practice here for the match. Sutton and Hoppe will meet Friday night.
Although the pair have met on numerous occasions for the 132 title in which Hoppe seems to have all claim, it has been a year since there has been a game for the title of one-shotted style of game. Last year the title game was played at Pittsburg on March 17 when Hoppe wrested the crown from Ora Morriester, who in the previous year took the title from Sutton.

Suit to Enjoin Killifer to Be Filed Thursday

President Gilmore Announces
That Proceedings Will Be
Brought in, Grand Rapids,
Mich., Court - Will Also
Take Action Against Pitch-
ers Kohler and Blanding

CHICAGO, March 16.—A bill asking for a permanent injunction to prevent William Killifer from playing with any baseball club except the Chicago Federal league club will be filed in the United States court at Grand Rapids, Mich., next Thursday, it was announced today by James A. Gilmore, president of the Federal league.

The Killifer case, Gilmore said, will be the first of a series of test cases to be started by the Federal league.

Gilmore said he would bring Pitchers Blanding and Kohler, of the Cleveland American league club, into court to show cause why they should not report to the Federal league, but this will not be done until the Killifer case is settled.

Killifer, according to Gilmore, signed a Federal league contract, accepted \$500 as advance money, then repudiated the

Mgr. Sanders Well Pleased

(Special Dispatch to The Journal.)
NEWNAN, Ga., March 16.—Manager "War" Sanders, of the Newnan team of the Georgia-Alabama league, announced today that he has almost completed plans for play to begin on the opening of the league, and that he was confident of not only winning the opening game, but of winning the pennant this season with ease, as he had never before had so much good material together in one team in his experience in baseball.

About sixty candidates have signed and a team of extra good artists have been picked.

Manager Sanders had planned to pitch the opening game against LaGrange on the local diamond, but at the request of pitcher Lovett, he has consented to let Lovett pitch, and "Quack" Clark, coach, Clark caught Lovett three seasons before his coming to the Georgia-Alabama league, and it was through the effort of Lovett that Clark signed. With this battery Sanders expects to win the majority of the games played.

Bawkins, the youngster who displayed such great pitching, who was one of the leaders last season, is in better shape than ever, and with these two pitchers the Newnan team seems to have good chance for the pennant.

Sanders and joined the Philadelphia National league club, which is now training in the south.

J. D. Travers, amateur golf champion of the United States, is going ahead in quest of new golfers to beat. Coast Artillery Sets New Record

SAVANNAH, Ga., March 16.—Announcement was made here Sunday of what is believed to be a new world's record in night target practice. The Eleventh company of the Coast Artillery fired Saturday fired seven shots at a range of 4,000 yards in one minute and fifty seconds, each shot taking effect.

Cobb Reports At Tiger Camp

NEW ORLEANS, March 16.—Tyrus Cobb, outfielder for the Detroit Americans, yesterday set at rest reports that he had been approached a second time with an attractive contract by the Federal league, with the statement that no such offer had been made. Cobb said he had refused one Federal proposition and added that he would play this season with Detroit in accordance with his contract. President Nantz arrived here today and returned to Gulfport with the team. He will spend this week at the training grounds. He appeared confident Cobb would remain with the team. He said Sam Crawford, outfielder, would report at Gulfport Monday.

French Take Great Interest in Baseball

NEW YORK, March 16.—Baseball has been taken up in France with great enthusiasm and soon will be a popular sport there, according to W. H. Burges, president of the Vincennes, France, baseball club, who arrived here Sunday. Recently 2,000 French enthusiasts witnessed at Dieppe a game between the Vincennes team and the home players, said Mr. Burges. The French players, he added, had adopted a lighter gear, recognizing somewhat that of the American track runners.

But why can't the Reds find some-thing else to do sometimes? The old-timers accustomed to loafing to

MANAGER HERZOG HAS PUT NEW LIFE INTO THE REDS

BY RUGER S. FULLERTON.

ALEXANDRIA, La., March 16.—Cincinnati has a manager. Therefore, Cincinnati, after being for a double decade one of the jokes of baseball, has prospects of having a real baseball club.

I have watched with considerable wonder the work of Charlie Herzog in grubbing out dead timber and placing live oak in its stead. There are managers and managers, but Herzog is the ultra modern manager of them all.

He has adopted the best ideas of Chance, of McGraw and of others, and on top of them he is phrasing his own ideas, and he is full of them.

If Herzog's tenure can stand the strain of the continual hammering that he must endure, can withstand the efforts of certain elements that have for years noiled under all Red managers, in other words, if the directors will let him, he will give Cincinnati a first division baseball club this season—and a pennant contender next.

He has a team which today is at least three weeks in advance of any other in training that I have seen. He has found a lot of promising material, and found it himself—men of his own type and men who will play baseball his way.

Herzog has made the old Red work and he is leading them working. The old-timers accustomed to loafing to

carelessness, and to playing only to draw their salaries and find an alibi are out there weeping and wondering. They are working faithfully, too. Herzog has them alarmed.

Herzog has theories concerning what a ball player should be. He wants clean, intelligent men. He has a round, one young star, who, with the possible exception of Collins of the Braves, is the most brilliant of the year. That fellow is Von Koltitz.

One type of player he is assembling shows what he wants. He wants to rid Cincinnati of the old looting, loose fighting, sporting player, and get in decent, hustling, ambitious men.

Cincinnati's great weakness, of course, is the pitching staff. Herzog has transformed Bowman into a spitball pitcher who promises to be a corker. He has "Vinling" in good condition, and the big right hand, Johnston, is pounds heavier and a step faster than he was in any time last season.

The infield will be Hallidie, Gros, Nichols, and Herzog, with Berghammer as sub and probable successor to Nichols should the last named rail down.

Bawkins, a corking recruit from the coast, has a chance at a regular job. Herzog, Moran and Macraes will form the regular outfield.

Herzog is a corking scout, hard working fellow, and he has a good team. Then there is Doc Fox Miller, who is working on with the best pinch hitters in the National league.

Chicago Bowlers Set Two Records

BUFTALO, N. Y., March 16.—Chicago bowlers in the American bowling congress tournament here yesterday furnished two new high scores in the individual event. E. Hesse rolled high score, 642, taking first place, while T. Hestermier took second place with a score of 638.

G. Hoagie and Leo Mayer, of Milwaukee, Wis., rolled high score in the two-man event.

High scores include:
Five-man event:
Howard Majors, Chicago, 2,881;
Clark's Priors, 2,877.
Two-man event:
O. W. Schmidt, W. A. Williams, Chicago, 1,279;
R. Hoagie, J. Krahl, Chicago, 1,159.
Individual event:
E. Hesse, Chicago, 642;
T. Hestermier, Chicago, 638.

Fourteen teams competed in the first round of the five-man event last night, but failed to displace any of the five leaders. Miller's five of Detroit shot high score, 2,681, taking ninth place in the standing.

Eddie McGorty Wins
SIDNEY, New South Wales, March 16.—Eddie McGorty, of Sydney, Wyo, yesterday was given a decision over Jack Smith, another American fighter, at the end of a hard-fought twenty-round bout. The referee's decision was unpopular.

POULTRY, PIGEONS AND LIVE STOCK

Prepare Now to Raise Feed for Your Poultry and Live Stock

ONE of the most important things today that we can do for this country is to encourage in every way possible the growing of more food supplies. Whenever our country is stocked with an abundance of food, live stock and poultry will follow. They will prosper and will make a big profit for the people who will give their time and attention to producing them. Our dairy products will decrease in price and show a big percent of profit, where they now show a loss if we could only raise our own feed.

In nine cases out of ten, people who go in the live stock business and dairy business do not think about the feed side of it. They will buy and stock their place with a large lot of cattle and have all of the feed to buy. When this is done, it is utterly impossible to make a profit. The feed is the most important thing in the live stock business. No man can make money by raising more live stock than he can feed. It is simply out of the question and can not be done.

More forage crops and more grain crops are the things that we must pay attention to. They can be grown and raised with this machinery, something that can not be had of cotton. Poor land, of which we have hundreds of acres, will produce feed for the live stock. It is the only way possible by which anyone can make a safe and sure thing in the live stock business. In keeping poultry on a large scale the same thing will eventually have to be done.

The farmer who has plenty of land and is situated so that he can raise an abundance of corn, sunflower seed, sorghum, soybeans, Egyptian wheat, Kaffir corn and alfalfa hay, if he will go to work and raise these products in abundance, having them on hand and then attempt to keep just the number of chickens that he can feed, he can not only be on the safe side and make a profit, where the man who has to depend on buying this feed for his live stock will lose.

As a rule, the middle man is the one who is getting the largest percent of profit from the live stock business. Many of the live stock raisers are getting a living out of the live stock business, especially the retail merchants, by selling their live stock at a big price. The producer is not receiving any more money for his goods. The consumer is having to pay a much higher price than was ever known before. There is a big loss or waste connected with the middle man's business, that sooner or later must be stopped.

Yours very truly,

Those things about the home which are no longer in use, or which you are going to replace with new purchases, can be sold quickly at much better than "junk" prices by advertising them in The Journal Wants, where everybody looks for such offers.
